

SOCIAL SUCCESS!!

Advanced Therapy Clinic and its team of therapists are excited to announce social skills groups for children. A six week program to help children develop lifelong social skills

What We Know...

Strong Social Skills Predict Long Term Success

Research tells us that the two most important predictors of a child's long term success are strong social skills and the ability to develop meaningful friendships.

Teaching Social Skills has positive outcomes

Increase in self esteem, confidence and emotional regulation are all a result of the development of stronger social skills.

Week 1

Listening
